**St. Cecilia's Turns 100 Update!**

This week we are launching two special components of our ongoing 100 year celebrations this year.

The first is the opportunity for past and present families and staff members to purchase a personalized paver to be included in a centenary walkway that will be laid within the school grounds. This is a significant way for the names of those families and staff members who have contributed to the growth of our school over the past 100 years to always be remembered.

The second is the compilation of personal memories of those who either attended the school, taught at the school or who have been involved in the St. Cecilia's school community in some way to be placed in a special book of memoirs to be titled 'Riverside Reflections'. Any expressions of interest for either of these centenary projects can be sent to stceciliasturns100@outlook.com or can be picked up from the school's front office.

We look forward to hearing from you and thank you for your support in commemorating this important historical milestone.

Mrs Tenille Callaghan
